PROFILE SUMMARY

Dedicated Agriculture student specializing in **Pesticides and Plant Protection**. Developer of **Hefnoplant** (AI Diagnostic Tool) and founder of **AgriHustle** content platform. Expert in combining academic toxicology knowledge with practical field experience in pesticide scheduling and sustainable IPM strategies.

EDUCATION

- Bachelor's Degree in Agriculture – Faculty of Agriculture, Menoufia University
- Major: Pesticides (Fourth-Year Student)
- Graduation Project: Hefnoplant – A bilingual web and mobile application dedicated to Plant Protection, covering pest identification and pesticide guidance.

EXPERIENCE

- Assistant Agricultural Engineer (Trainee) – Abu El Khair Farm, Menoufia (Feb 2024 – Mar 2024)
Participated in fruit crop management (grapes, mangoes), pesticide scheduling, pest identification, and irrigation maintenance.
- Agricultural Products Sales Assistant – Pesticides & Fertilizers Store, Menoufia (Apr 2024 – Dec 2024)
Provided technical consultations to 50+ farmers weekly, leading to a **20% increase** in regional crop productivity through optimized fertilization programs.
- **Analyzed chemical compatibility** of various pesticide groups (Organophosphates, Neonicotinoids) to provide safe application mixtures for clients.
- Vegetable Nursery Worker (Seasonal) – Tala, Menoufia (Jul 2024)
Assisted in seed sowing, transplanting, and pest control; gained experience in nursery management.

Hefnoplant & AgriHustle (Founder & Developer)

- (Ongoing) Developed an AI-driven tool with 90%+ diagnostic accuracy for identifying 20+ Egyptian crop diseases, providing real-time treatment recommendations. Produced 100+ educational videos on plant protection and toxicology, reaching over 5,000+ views across social media platforms to raise farmer awareness.

TRAININGS & COURSES

- Technical Pesticide & Chemicals Course – Elhelb Pesticides & Chemicals Co. (2026).
- Manufacturing & Repacking of Pesticides – EGYPTCHEM International (2025).
- Project Management Institute – Certificate of Achievement (May 2025)
- ICDL Course – Faculty of Agriculture, Menoufia University (Jan 2023)
- Training: Pesticides and Integrated Pest Control – Desert Research Center (Feb 2025)
- Training: Plant Tissue Culture & Applications – Desert Research Center (Feb 2025)
- Training: Pesticide Analysis & Agricultural Applications – Desert Research Center (Jul 2025)
- Training: Kafr El Zayat for Pesticides & Chemicals (Jul 2025)

TECHNICAL SKILLS

- Pesticide Expertise: Pesticide Toxicology, Mode of Action (MoA), Chemical Compatibility, Pesticide Residue Analysis.
- Plant Protection: Integrated Pest Management (IPM), Phytopathology, Entomology, Plant Disease Diagnosis.
- Agri-Tech & Lab: Soil Fertilization, Field Operations Management.

SOFT SKILLS

- Teamwork
- Interpersonal Communication
- Time Management
- Cross-functional Collaboration.

VOLUNTEER EXPERIENCE

Public Relations Volunteer – Life Makers, Faculty of Agriculture, Menoufia University (Sep 2024 – Sep 2025)

FIELD VISITS

- Sahara Exhibition – Agricultural technologies and innovations.
- Corteva Agriscience Company – Seed and crop protection strategies.
- Central Laboratory for Pesticide Residue Analysis (CLAP) – Food safety and residue testing.
- Syngenta Egypt – Crop protection and sustainable agriculture.
